TO MY CUSTOMERS AND FRIENDS:

I want to thank my many friends and customers for their loyal support and cooperation given me since my return from the Service. Stock of all plants was badly depleted and it has been impossible to get skilled help. However, we have done the best we could to take care of all orders and build up stock once more. Many sorts are still short and we will appreciate an opportunity to substitute if we are out when your turn comes but we urge everyone to order as early as possible to avoid disappointment.

It is very difficult to attend to correspondence during these hectic times, so please do not become impatient if we delay answering your letters. Please know that we are doing the best we can but the nurseryman's day is never quite long enough.

SHIPMENT — All shipments will be sent Express collect unless postage is included. 15% East of the Mississippi and 10% West of the Mississippi river. Shipments over \$5.00 in the states of Montana, Idaho, Washington, Oregon and California will be prepaid.

Responsibility—While we endeavor to fill all orders with the greatest of care, we can accept no responsibility, either express or implied for failure with stock purchased from us as there are too many existing conditions over which we have no control.

BARGAIN COLLECTIONS

We offer the following bargain collections for those not interested in named varieties. These are taken from stock on which the names have been lost or such few items as we have a surplus of. These collections are worth several times the price.

Chrysanthemums

Chrysanthemums have no equal for cut flowers. The early sorts will give good blooms by the first of July and by a judicious choice of types we may have bloom until actual freezing weather. Many sorts are impervious to light frosts. Give plenty of moisture in full sun and fertilize heavily. Barnyard manure is the best and should be dug into the ground before planting and applied again when plants are in bud.

NEW EARLY FLOWERING ENGLISH CHRYSANTHEMUMS

If disbudded these new sorts will make flowers from 5" to 6" across. If not disbudded the blooms will be larger than any other garden varieties. They also have the habit of early blooming which makes them doubly valuable for garden use.

Fantail Pigeons

LIVE ORNAMENTS FOR YOUR GARDEN

Nothing is more lovely than these beautiful birds strutting about a garden. They are as proud as peacocks of their huge, beautiful tails and fairly quiver with excitement as they strut about. Their soft cooing is always delightfully soothing, and as they are not very strong flyers, due to the weight of the heavy tail, they are always close to their home which can be regulated at will. An artistically built dove cote atop a post, or a shelf placed inside an out building with a small hole cut through to let them in and out will do nicely. We are very proud of our exceptionally fine stock and have a few pairs only to spare this year.

Black	\$4.00 per pair
Blue	\$4.00 per pair
Red	\$5.00 per pair
